Get to Know Chris

Sharing and honoring the same values of those that call South Georgia home is important to Chris. From attending Jerger Elementary to graduating Thomasville High and earning a Bachelor of Science in Rehabilitation Counseling from Thomas University, he lives the traditions that make our community great. Starting his career in 1999 as a Therapist and Senior Adult Services Coordinator for a regional health care facility, Chris transitioned into the corporate environment in 2003. During more than fifteen-years in the insurance industry, he earned the position of Vice President of Human Resources and became licensed as a sales agent serving five states. These experiences provided opportunities that reinforced his understanding that in business, as in life, achieving success in any transaction can only come through people working together and forming lasting relationships.

Growing up in a family of entrepreneurs, that for generations has been involved hands on with every aspect of construction and development of many iconic Thomasville residential neighborhoods and business districts, Chris has an intimate and unique connection with our city's past, present and future. He is active in numerous community outreach projects and serves as an Executive Board Member of the Thomas County United Way, where he has also held the role of President. He is an advisory board member for the Scott Senior Citizens Center, and a member of Thomasville Landmarks. Chris has also been the recipient of the Thomas University Distinguished Young Alumni Award. He has been involved in the Thomasville Rose Festival as a parade float designer for private industry and nonprofit organizations.

He is motivated by helping clients realize their home and property ownership dreams. From first time home buyers to those in their golden years planning to downsize, and every phase of life and business in between, Chris is proud to be a part of KeySouth and continuing the rich heritage of home ownership in our community.
